

ENVIRONMENTAL APPROVALS REFERRAL FORM (TO EPA)

NOTE: This form should be filled in and then forwarded to the Manager Environment for counter signing. Environment Branch will forward all EPA referral documents to the EPA direct.

Project Managers and others are not to send referrals to the EPA direct or without the signature of the Manager Environment. Any referrals that DEP/EPA receives that have not been signed by the Manager Environment will be returned to the Environment Branch by the DEP/EPA.

PROJECT TITLE: ALKIMOS WASTEWATER TREATMENT PLANT. WASTEWATER DISPOSAL STRATEGY AND PROPOSED OCEAN OUTLET.	
Project Manager George Golowyn	Phone No: 08) 9420 2161
Is this a new Project or Proposal?	Y/ N
Has it been referred to the EPA before?	Y /N
Is it a Change to a Proposal that has already been assessed?	Y /N
Is it a change to Conditions from a project already assessed?	Y /N
Can it be assessed as only a Works Approval/Licence?	Y /N

LIKELY LEVEL OF ASSESSMENT FOR PROJECT

Project Manager Estimate	Environment Branch Estimate	LOA set in Black Book by EPA (& date set)	Date EPA Report released (or Works Approval/License approved)
PER	PER		

See next page for the options for levels of assessment to fill into this table.

S:1DEPEPA\referral procedure\project referrals 2002-2002.XLS.

OPTIONS FOR LEVELS OF ASSESSMENT THAT CAN BE SET BY THE EPA

FOR NEW PROPOSALS OR PROJECTS	FOR CHANGES TO PROJECTS ALREADY ASSESSED UNDER S38
Not Assessed (informal advice given)	
Not Assessed (Can be managed under another Act, including Part V of EP Act) Examples include: Fuel Storage, Dangerous and Hazardous Goods Transport and Storage and Explosives; which can all be managed by DoME. Prescribed Premises eg WWTPs which require Part V Works Approvals and Licences. Permission to “take” flora/fauna under CALM Act.	
Strategic Advice In addition strategic advice can be sought from the EPA under section 16 of the EP Act. An example was the manner in which EPA provided advice on the Perth’s Water Future report.	
Formal Assessment - Environmental Protection Statement (EPS) a) proponent-initiated b) EPA-initiated	Application to change Environmental Conditions (s46) a) substantial change (new assessment by EPA) b) non substantial change
Formal Assessment -Public Environmental Review (PER)	Application to change Environmental Conditions (s46) c) substantial change (new assessment by EPA) d) non substantial change
Formal Assessment – Environmental Review and Management Programme (ERMP)	Environmental Management Plan (EMP) (if required by Conditions)
Formal Assessment “quick no” – Proposal Unlikely to be Environmentally Acceptable (PUEA)*	Progress and Compliance Review (PCR) (if required by Conditions)

*Note: No project from the Water Corporation should ever be given a PUEA level of assessment.

**Referral of a Proposal to the Environmental Protection Authority
under Section 38(1) of the Environmental Protection Act.
Referral by the Proponent**

PURPOSE OF THIS FORM

Section 38(1) of the *Environmental Protection Act 1986* provides that where a development proposal is likely to have a significant effect on the environment, a proponent may refer the proposal to the Environmental Protection Authority (EPA) for a decision on whether or not it requires assessment under the Act.

A referral to the EPA by a proponent under Section 38(1) must be made on this form.

Before completing this form, proponents are encouraged to familiarise themselves with the EPA's General Guide to Proponents for Referral of Proposals, and any Guides for Referrals for specific categories of proposals (these can be accessed on the EPA's website at www.environ.wa.gov.au or by contacting the EPA on 9222 ???). These Guides provide information on the types of proposals which need to be referred and specific information required in respect of different categories of proposals.

Proponents need to complete all sections in Parts 1, 3, and 4 of the form. Part 2 should be completed based on known information to the proponent. Only those sections of Part 2 which are pertinent to the proposal need to be completed. Where information is contained in a report which is to be submitted with the referral form, the proponent may complete sections of the form by simply referring to the pertinent section of the report.

Proponents are encouraged to attach any other environmental information they consider may be relevant to the EPA for making a decision on whether or not to assess the proposal, and if it is to be assessed, the level of assessment. In general, referrals should contain information on the potential environmental impacts of the proposal and the proposed management mechanisms to be implemented to minimise these impacts.

Where the EPA decides that a proposal will be assessed at the level of Public Environmental Review or Environmental Review Management Programme, it will also require the proponent to prepare an Environmental Scoping Document (refer Environmental Impact Assessment (Part IV Division of 1) Administrative Procedures 2001).

REFERRING A PROPOSAL TO THE EPA - THE INFORMATION REQUIRED

PART 1 - PROPONENT INFORMATION AND PROPOSAL DESCRIPTION

1.1 Proponent information

Alkimos Wastewater Treatment Plant. Wastewater Disposal Strategy and Proposed Ocean Outlet

Name of proponent (Person or entity proposing to implement the proposal)
Water Corporation of Western Australia.

Address of proponent
629 Newcastle Street Leederville WA 6007.

Key contact for the proposal

(Name address and phone/facsimile number and email address. This may be a consultant if one is being used)

**Mr George Golowyn (phone 9420 2161; fax 9420 3680; george.golowyn@watercorporation.com.au)
Water Corporation, 629 Newcastle Street Leederville WA 6007**

- Does the proponent own the land on which the proposal is to be established, or what other arrangements have been established to access the land?

For Site A, land owned and zoned appropriately.

For Sites B and B1, partial land acquisition and MRS amendment required.

- Is rezoning of any land required before the proposal can be implemented?

Yes No (please tick)

If yes, please provide details.

For Sites B and B1, MRS amendment required.

- Is approval required from any Commonwealth or State Government agency or Local Authority for any part of the proposal?

Yes No (please tick)

Name all Agencies and Local Authorities from which any approval is required and whether these agencies have been contacted.

- If yes above, have you lodged any of the necessary applications or have you discussed the proposal with any person(s) at the Agency or Local Authority?

Yes No (please tick)

If yes, name all Agencies and Local Authorities for which applications have been submitted or with whom the proposal has been discussed.

- What is the current land use on the property, and the extent (area in hectares) of the property?

1.2 **Proposal Description** (*Please attach extra pages where necessary*)

- Provide a description of the proposal.

Please see attached project referral document.

- What is the proposed ultimate extent (area in hectares) of the activity?

WWTP, infiltration areas and outlet launching site approximately 47 ha.

- Provide the timeframe in which the activity or development is proposed to occur.

(Include start and finish dates where applicable)

Please see attached project referral document.

- Provide details of any staging of the proposal.

Please see attached project referral document.

- Indicate whether, and in what way, the proposal is related to other proposals in the region.

Alkimos WWTP is part of the sewerage and wastewater treatment and disposal system needed to service developments in this section of the North West Corridor; Two Rocks interim WWTP refers.

1.3 **Location/ locality details**

- Please detail the location or locality details of the proposal.

(This may include street address, lot numbers, or latitude and longitude references etc. – sufficient information to be able to locate the project area)

Please see attached project referral document.

Please also attach the following map/ plans clearly showing the location of the development in its regional and local context.

- Locality plan – Broad Scale – PROVIDED.**

Provide a locality plan (and preferably an aerial photograph) to identify:

- proposed development site and any associated infrastructure
- main roads
- urban centres
- wetlands and watercourses
- remnant native vegetation
- adjoining land uses (including recreation)
- sensitive marine areas

Site Plan – Proposal Details. PROVIDED

Provide a site plan to scale and indicate the location of:

- lot boundaries
- road frontages
- extent of the proposed development area
- extent of the proposed buffer area (if applicable)

Site Plan – Existing Environment. PROVIDED

Provide a site plan to scale (the same scale as above) and indicate the location of:

- lot boundaries
- road frontages
- any information required to be shown from Section 2.2 of this form
- extent of native vegetation of the site (the extent of overlap between the proposed development area and the area of native vegetation must be highlighted)
- extent of hydrological features on the site (this includes wetlands, watercourses, creek lines, seasonal creeks and artificial drainage lines)
- sensitive marine areas

PART 2 - ENVIRONMENTAL IMPACTS

Environmental Considerations

Describe the impacts of the proposal on the following elements of the environment, through the questions below:

- (i) **flora and vegetation;**
- (ii) **fauna;**
- (iii) rivers, creeks, wetlands and estuaries;
- (iv) **significant areas and/ or land features;**
- (v) **coastal zone areas;**
- (vi) **marine areas and biota;**
- (vii) **water supply and drainage catchments;**
- (viii) **pollution;**
- (ix) greenhouse gas emissions;
- (x) contamination;
- (xi) **social surroundings; and**
- (xii) risk.

(note: these features should be shown on the site plan, where appropriate)

For all information, please provide:

- (a) the source of the information; and
- (b) how recent the information is.

2.1 Flora and Vegetation

Do you propose to clear any native flora and vegetation as a part of this proposal?

- Yes No (please tick)

If yes, complete the rest of this section

How much vegetation are you proposing to clear (in hectares)?

(Any proposal to clear more than 1 hectare of native vegetation may require a Notice of Intent to Clear to be submitted to the Commission of Soil and Land Conservation. Please contact the Commissioner's office for more information.)

Up to 47 ha, consisting of 12 ha for ocean outlet launching site, 2 ha for ocean outlet easement from WWTP, 8 ha for infiltration ponds and 25 ha for the WWTP.

- If there is to be more than 1 hectare of clearing, have you submitted a Notice of Intent (NOI) to clear native vegetation to the Commissioner of Soil and Land Conservation?
 Yes No (please tick)
If yes on what date was the NOI submitted and to which office of the Commissioner / Agwest?

- Are you aware of any recent flora surveys carried out over the area to be disturbed by this proposal?
 Yes No (please tick)
If yes, please attach a copy of any related survey reports and provide the date and name of persons / companies involved in the survey/s. (If no, please do not arrange to have any biological surveys conducted prior to consulting with the DEP.)

- If you are proposing to clear native vegetation for any part of your proposal, a search of Department of Conservation and Land Management (CALM) records of known occurrences of rare or priority flora and threatened ecological communities will be required. Please contact the Como office of CALM for more information.

- Has a search of CALM records for known occurrences of rare or priority flora or threatened ecological communities been conducted for the site?
 Yes No (please tick)

- Are there any known occurrences of rare or priority flora or threatened ecological communities on the site?
 Yes No (please tick)
If yes, please indicate which species or communities are involved and provide copies of any correspondence with CALM regarding these matters.

- If located within the Perth Metropolitan Region, is the proposed development within or adjacent to a listed Bush Forever Site? (You will need to contact the Bush Forever Office, based at the Ministry for Planning)
 Yes No (please tick)
If yes, please indicate which Bush Forever site is affected (site number and name of site where appropriate).
Bush Forever Site # 397.

- What is the condition of the vegetation at the site?
Variable – from good to heavily grazed with weeds. Sites A and B are mostly on degraded land, vegetation on Site B1 is in better condition.

2.2 Fauna

- Do you expect that any fauna or fauna habitat will be impacted by the proposal?
 Yes No (please tick)
If yes, complete the rest of this section

- Describe the nature and extent of the expected impact.

- Are you aware of any recent fauna surveys carried out over the area to be disturbed by this proposal?
 Yes No (please tick)
If yes, please attach a copy of any related survey reports and provide the date and name of persons / companies involved in the survey/s. (If no, please do not arrange to have any biological surveys conducted prior to consulting with the DEP.)

- Has a search of CALM records for known occurrences of Specially Protected (Threatened) fauna been conducted for the site?
 Yes No (please tick)

- Are there any known occurrences of Specially Protected (Threatened) fauna on the site?
 Yes No (please tick)
 If yes, please indicate which species or communities are involved and provide copies of any correspondence with CALM regarding these matters.

2.3 Rivers, Creeks, Wetlands and Estuaries

- Will the development occur within 200m of a river, creek, wetland or estuary?
 Yes No (please tick)

If yes, complete the rest of this section

- Will the development result in the clearing of vegetation within the 200 m zone?
 Yes No (please tick)
 If yes, please describe the extent of the expected impact.

- Will the development result in the filling or excavation of a river, creek, wetland or estuary?
 Yes No (please tick)
 If yes, please describe the extent of the expected impact.

- Will the development result in the impoundment of a river, creek, wetland or estuary?
 Yes No (please tick)
 If yes, please describe the extent of the expected impact.

- Will the development result in draining to a river, creek, wetland or estuary?
 Yes No (please tick)
 If yes, please describe the extent of the expected impact.

- Are you aware if the proposal will impact on a river, creek, wetland or estuary (or its buffer) within one of the following categories? (please tick)

Conservation Category Wetland	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Unsure
Environmental Protection (Swan Coastal Plain Lakes) Policy 1992	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Unsure
Draft Environmental Protection Policy for lakes and swamps of the South West Agricultural Zone	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Unsure
Perth's Bush Forever site	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Unsure
To which international agreements apply, because of the importance of the wetland for waterbirds and waterbird habitats (e.g. Ramsar, JAMBA, CAMBA)	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Unsure

2.4 Significant Areas and/ or Land Features

- Is the proposed development located within or adjacent to a National Park or Nature Reserve?
 Yes No (please tick)
 If yes, please provide details.

- Are you aware of any significant natural land features (e.g. caves, ranges etc) that will be impacted by the proposed development?
 Yes No (please tick)

If yes, please provide details.

2.5 Coastal Zone Areas (Coastal Dunes and Beaches)

- Will the development occur within 300m of a coastal area?
✓ Yes No (please tick)

If yes, complete the rest of this section

- What is the expected setback of the development from the high tide level and from the primary dune?
Except for the ocean outlet, Option A ~ 350m; Options B and B1 ~ 1100m.
- Will the development impact on coastal areas with significant landforms including beach ridge plain, cusperate headland, coastal dunes or karst?
✓ Yes No (please tick)
If yes, please describe the extent of the expected impact.
About 12 ha of disturbance at the ocean outlet launching site.
- Is the development likely to impact on mangroves?
 Yes ✓ No (please tick)
If yes, please describe the extent of the expected impact.

2.6 Marine Areas and Biota

- Is the development likely to impact on an area of sensitive benthic communities, such as seagrasses, coral reefs or mangroves?
✓ Yes No (please tick)
If yes, please describe the extent of the expected impact.
To be determined and modelled for groundwater infiltration of treated wastewater and construction and operation of the ocean outlet.
- Is the development likely to impact on marine conservation reserves or areas recommended for reservation (as described in *A Representative Marine Reserve System for Western Australia*, CALM, 1994)?
 Yes ✓ No (please tick)
If yes, please describe the extent of the expected impact.
- Is the development likely to impact on marine areas used extensively for recreation or for commercial fishing activities?
✓ Yes No (please tick)
If yes, please describe the extent of the expected impact, and provide any written advice from relevant agencies (e.g. Fisheries WA) or management authorities such as those created under the *Waterways Conservation Act 1976* (e.g. Albany Waterways Management Authority).

As above – to be determined in detail.

2.7 Water Supply and Drainage Catchments

- Are you in a proclaimed or proposed groundwater or surface water protection area?
(You may need to contact the Water and Rivers Commission (WRC) for more information on the requirements for your location, including the requirement for licences for water abstraction. Also, refer to the WRC website)
✓ Yes No (please tick)
If yes, please describe what category of area.

See PDWSA comment.

- Are you in an existing or proposed Underground Water Supply and Pollution Control area?
(You may need to contact the WRC for more information on the requirements for your location, including the requirement for licences for water abstraction. Also, refer to the WRC website)
✓ Yes No (please tick)
If yes, please describe what category of area.
See PDWSA comment.

- Are you in a Public Drinking Water Supply Area (PDWSA)?
(You may need to contact the WRC for more information or refer to the WRC website. A proposal to clear vegetation within a PDWSA requires approval from WRC.)
 Yes No (please tick)
If yes, please describe what category of area.
The whole development area, which is subject to an MRS amendment to zone it urban/commercial is within a currently declared PDWSA. However the DoE plans to move the boundary of the PDWSA ~ 1km to the east (reference Stephen Watson DoE).
- Is there sufficient water available for the proposal?
(Please consult with the WRC as to whether approvals are required to source water as you propose. Where necessary, please provide a letter of intent from the WRC)
Yes
- Will the proposal require drainage of the land?
 Yes No (please tick)
If yes, how is the site to be drained and will the drainage be connected to an existing Local Authority or Water Corporation drainage system? Please provide details.
- Is there a water requirement for the construction and/ or operation of this proposal?
 Yes No (please tick)
If yes, complete the rest of this section
- What is the water requirement for the construction and operation of this proposal, in kl/year?
30-40 ML/day (10,950-14,600 ML/year). Note that much of this water will be sourced from internal recycling within the WWTP.
- What is the proposed source of water for the proposal? (eg dam, bore, surface water etc.)

Scheme, internal recycling and possibly local groundwater.

2.8 Pollution

- Is there likely to be any discharge of pollutants from this development, such as noise, vibration, gaseous emissions, dust, liquid effluent, solid waste or other pollutants?
 Yes No (please tick)
If yes, complete the rest of this section
- Is the proposal a prescribed premises, under the Environmental Protection Regulations?
(Refer to the EPA General Guide to Proponents for Referrals for more information)
 Yes No (please tick)
If yes, please describe what category of prescribed premise.
Category 54. - Sewage facility
- Will the proposal result in gaseous emissions to air?
 Yes No (please tick)
If yes, please briefly describe.
There is the potential for odour emissions.
- Have you done any modelling or analysis to demonstrate that air quality standards will be met, including consideration of cumulative impacts from other emission sources?
 Yes No (please tick)
If yes, please briefly describe.
Preliminary modelling has been done, based on local meteorological data. The WWTP and its buffer will be designed to meet contemporary odour standards.
- Will the proposal result in liquid effluent discharge?
 Yes No (please tick)
If yes, please briefly describe the nature, concentrations and receiving environment.
Advanced secondary-treated wastewater, with possible interim discharge to groundwater and in the longer term ocean disposal via on ocean outlet.

- If there is likely to be discharges to a watercourse or marine environment, has any analysis been done to demonstrate that the National Water Quality Management Strategy or other appropriate standards will be able to be met?
 Yes No (please tick)
 If yes, please describe.
Investigation, dispersion and assimilation modelling, and ocean outlet design studies will be undertaken to ensure that the marine environment is not harmed.
- Will the proposal produce or result in solid wastes?
 Yes No (please tick)
 If yes, please briefly describe the nature, concentrations and disposal location/ method.
Stabilised biosolids will be produced, and applied to farmland within existing guidelines. Screenings will be disposed of by burial, most probably to landfill.
- Will the proposal result in significant off-site noise emissions?
 Yes No (please tick)
 If yes, please briefly describe.
- Will the development be subject to the Environmental Protection (Noise) Regulations?
 Yes No (please tick)
 If yes, has any analysis been carried out to demonstrate that the proposal will comply with the Regulations? Please attach.
No work has been done to date.
- Does the proposal have the potential to generate off-site, air quality impacts, dust, odour or another pollutant that may affect the amenity of residents and other “sensitive premises” such as schools and hospitals (proposals in this category may include intensive agriculture, aquaculture, marinas, mines and quarries etc.)?
 Yes No (please tick)
 If yes, please describe and provide the distance to residences and other “sensitive premises”.
- If the proposal has a residential component or involves “sensitive premises”, is it located near a land use that may discharge a pollutant?
 Yes No Not Applicable (please tick)
 If yes, please describe and provide the distance to the potential pollution source.

2.9 Greenhouse Gas Emissions

- Is this proposal likely to result in significant greenhouse gas emissions (greater than 100 000 tonnes per annum of carbon dioxide equivalent emissions)?
 Yes No (please tick)
 If yes, please provide an estimate of the annual gross emissions in absolute and in carbon dioxide equivalent figures.
- Further, if yes, please describe proposed measures to minimise emissions, and any sink enhancement actions proposed to offset emissions.

2.10 Contamination

- Has the property on which the proposal is to be located been used in the past for activities which may have caused soil or groundwater contamination?
 Yes No Unsure (please tick)
 If yes, please describe.
- Has any assessment been done for soil or groundwater contamination on the site?
 Yes No (please tick)
 If yes, please attach.

2.11 Social Surroundings

- Is the proposal on a property which contains or is near a site of Aboriginal ethnographic or archaeological significance that may be disturbed?
 Yes No Unsure (please tick)
If yes, please describe.
Site will be surveyed for sites of significance.
- Is the proposal on a property which contains or is near a site of high public interest(for example, a major recreation area or natural scenic feature)?
 Yes No (please tick)
If yes, please describe.
Coastal recreation.
- Will the proposal result in or require substantial transport of goods, which may affect the amenity of the local area?
 Yes No (please tick)
If yes, please describe.
There will be a few movements of bulk process chemicals into the plant and biosolids away from the plant each day, at a scale similar to that of existing major metropolitan WWTPs.

2.12 Risk

- Is the proposal located near a hazardous industrial plant or high pressure gas pipeline?
 Yes No (please tick)
If yes, please describe.
- Does the proposal have the potential to generate off-site risk?
 Yes No (please tick)
If yes, will the proposal be a major hazardous facility regulated under the Explosives and Dangerous Goods Act?

Yes. Chlorine gas will be stored on site for disinfection of wastewater.

PART 3 - MANAGEMENT COMMITMENTS

3.1 **Management Commitments**

- How has the proposal been developed to minimise and manage potential impacts?
Please describe any commitments you make as the proponent to minimising the potential environmental impacts of this development.

Yes. There will be advanced treatment and environmentally benign disposal of treated wastewater, and state-of-the-art odour emission control and biosolids management. Risks from stored chemicals will be managed to the standards required by the Explosives and Dangerous Goods Act.

3.2 **Consultation**

- Has public consultation taken place (such as with other government agencies, community groups or neighbours), or is it intended that consultation shall take place?
 Yes No (please tick)
If yes, please attach comments or summarise response below.

Discussion has occurred with Landcorp, some nearby land owners, the City of Wanneroo, and the Department of Planning and Infrastructure. Further consultation will occur as the proposal progresses.

PART 4 - CHECKLIST AND DECLARATION

Before you submit this form, have you:	YES	NO
Completed all the questions on this form?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Attached any extra information, such as:		
Site plans?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Detailed explanations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Comments obtained during consultation?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Any other relevant information?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Following consideration of the information presented in this form, please consider the following question.
(Response Optional)

<p><input type="checkbox"/> DO YOU CONSIDER THE PROPOSAL REQUIRES FORMAL ENVIRONMENTAL IMPACT ASSESSMENT? (Information on the levels of environmental impact assessment is available on the EPA website at www.environ.wa.gov.au)</p> <p><input checked="" type="checkbox"/> YES <input type="checkbox"/> NO <input type="checkbox"/> NOT SURE</p> <p>IF YES, WHAT LEVEL OF ASSESSMENT?</p> <p><input type="checkbox"/> ASSESSMENT ON REFERRAL INFORMATION</p> <p><input type="checkbox"/> ENVIRONMENTAL PROTECTION STATEMENT</p> <p><input checked="" type="checkbox"/> PUBLIC ENVIRONMENTAL REVIEW</p> <p><input type="checkbox"/> ENVIRONMENTAL REVIEW AND MANAGEMENT PROGRAMME</p>

I, George K Golowyn. (*full name*) declare that I have completed all of the questions in this form and attached the requested information and declare that the information contained in this form is, to my knowledge, true and not misleading.

Signature	<input type="text"/>
Name	George K Golowyn
Position	Project Manager
Date	14 July 2004

The details listed below are for the head office of the primary agencies involved in the development proposals. You may need to contact your relevant district or regional office. You will also need to contact your Local Government Authority in the first instance. For some proposals, consultation with or referral to Commonwealth agencies may be required.
