

The biggest state has some of the biggest engineering career opportunities.

The Water Corporation is one of the largest water service providers in Australia, serving almost two million customers across 2.5 million square kilometres in WA. We're proud to be acknowledged internationally for our water supply management expertise and innovation in responding to our drying climate.

As a graduate at the Water Corporation you will have the chance to work on our \$1 billion a year capital works program on assets like the Perth Seawater Desalination Plant, high elevation water towers, major reservoirs and water treatment plants.

What's in it for you?

There are lots of great things about being part of the Water Corporation. Some of the best?

- Permanent employment with a competitive pay structure and a range of benefits
- Experience in various areas of the business through rotational assignments
- Mentoring and coaching
- Working on Western Australia's major water projects and key infrastructure assets
- On-the-job training, learning about the latest innovations in water technology
- Financial assistance towards further study
- A friendly work environment where people are committed to working as a team
- Flexible working arrangements that mean you can enjoy the fantastic WA way of life
- Graduate forums and social events that enable you to build lasting friendships with other graduates

Do you have what it takes?

We are looking for innovative thinkers who are focused on achieving results and are passionate about their work. If you are an enthusiastic team player and want to work with the best in the water industry then we want you to be part of our Graduate Development Program.

Your qualifications need to be degree level or higher in:

- Civil Engineering
- Mechanical Engineering
- Environmental Engineering
- Electrical Engineering

International students are invited to apply for our Graduate Development Program and we can provide assistance with visa applications for successful candidates.

Are you considering vacation employment?

If you are in your second, third or fourth year at university and you are looking for an opportunity to gain hands-on experience in a range of disciplines, our Undergraduate Vacation Employment Program is for you.

We offer paid work experience in various locations throughout the State for a 12 week period after which opportunities may arise for part-time work whilst you are still studying.

Check out our vacation opportunities advertised on the careers section of our website between March and April each year.

What's next?

We encourage and consider applications all year round and we are flexible on start dates for new graduates. You can apply on-line at the careers section of our website www.watercorporation.com.au
