Note

1. Headworks contributions are not subject to GST.
2. Contribution amounts shown are for the base level of service required for an average residential property in a typical urban location. Contribution amounts for other properties requiring greater than the base level of service will be assessed in multiples of this amount.
3. Contributions may vary for developments in Special Development Contribution Areas. For details of Special Developer Contribution Areas refer to [Information sheet No. 37](#).
4. Drainage headworks contributions only apply to developments within the catchment of a Perth Metropolitan Main Drain.
5. For lots equal to or greater than one hectare the water supply contribution is based on the full scheme costs and may be greater than the Standard Headworks Contribution amount – enquiries should be made at the local Water Corporation office.
6. The level of contribution for each development must to be verified by the Water Corporation.
