

Why does beer make your garden grow?

The Water Corporation is working with WA Businesses to ensure they too are doing their bit to use water more efficiently. All the Swan Brewery's wastewater is treated on site and used on its lawns and gardens. It's just one part of the Swan Brewery's ongoing commitment to being a resource-efficient community member. The Swan Brewery saves money and it helps save WA's precious water. If you would like your business to receive the benefits of being a Waterwise Business call 13 10 39 or visit watercorporation.com.au to register.
