

Belmont Forum Shopping Centre is helping our drinking water supply to grow.

The Water Corporation is working with WA Businesses to ensure they too are doing their bit to use water more efficiently. We call it the Waterwise Business Program and businesses like Belmont Forum Shopping Centre are showing their commitment to water conservation by implementing improved water management practices. Since November 2004, Belmont Forum has made Water Management a key focus of their Environmental Management System. A number of initiatives, including sub-metering of tenancies, installing tap sensors, planting more Australian native and perennial plants and rainwater tanks are all in the process of being investigated and implemented, with the aim of minimising scheme water consumption throughout the centre. If you would like your business to become a Waterwise Business, call the Waterwise Infoline on 13 10 39 or log onto www.watercorporation.com.au
