

Perth Zoo is helping our  
water supply to grow.

The Water Corporation is working with WA Businesses to ensure they too are doing their bit to use water more efficiently. We call it the Waterwise Business Program and businesses like Perth Zoo are showing their commitment to water conservation by implementing improved water management practices. Since participating in the program in March 2005, Perth Zoo has commenced the planning for improvements aimed at reducing their overall water consumption. The Zoo is focusing on the key areas of water saving awareness and training for staff and customers, as well as waterwise maintenance procedures. If you would like your business to become a Waterwise Business, call the Waterwise Infoline on 13 10 39 or log onto [www.watercorporation.com.au](http://www.watercorporation.com.au)
