Approval certificate
Trade waste pre-treatment product

Applicant: GRAF Australia Pty Ltd
Postal address: PO Box 1182, Bibra Lake WA 6965
Manufacturer: GRAF Plastics Australia Pty Ltd
Address: 23 Success Way Henderson WA 6166

Attention: Esun Mazinani
Web: www.grafaustalia.com.au
Email: info@grafaustalia.com.au

Product/device description
The GRAF Australia range of passive grease arrestors are designed to trap and remove grease, fat and oil from commercial kitchens. GRAF trade waste tanks are manufactured from roto-moulded polyethylene (PE) materials, which are UV stabilised.

The product range offers two models of varying sizes (Sapphire – three makes; and Diamant series – two makes).

The approval certificate applies to the pre-treatment devices of the following sizes:

1: Not including riser or lid cover; 2: Including riser; 3: From base; 4: The Diamant units can only be installed as single units. Where the installation of the Diamant units are proposed then a formal Water Corporation Trade Waste plumbing assessment of the overall waste stream processes must first be made (and approved) to determine if the Diamant unit is the most appropriate form of pre-treatment.

Special conditions of approval
1. The product shall be supplied with manufacturer’s installation instructions and recommended procedures for operation and maintenance.
2. The product shall be installed and maintained strictly in accordance to the following GRAF Australia documentation (specific to Water Corporation area of operations):
3. This approval certificate is not a stand-alone document and must be read in conjunction with the following Water Corporation documents:
   a. Typical Drawings for Trade Waste – Grease Arrestor (HX33-10-00)
   b. Grease Arrestor Installation Guidelines (PUB-23-B)
4. A maintenance contract is to be in place to ensure the ongoing reliability of the product.
5. Water Corporation must be notified within fourteen (14) days upon installation of the product.
6. The use of emulsifying agents upstream of the product must not occur. Such instructions must be noted on operating documentation.
7. The product chosen must be suitably sized to avoid surge conditions.
8. Clear access for the purposes of maintenance or servicing of the pre-treatment device must be maintained at all times.
9. This approval certificate is not an endorsement of the product by Water Corporation, and no claim shall be made in advertising, promotion or other manner to the effect.
10. Water Corporation accepts no responsibility for the effective operation, performance or efficiency of the product. This approval is not an engineering approval or structural endorsement.
11. The proponent of the approved product must formally seek a request for re-approval of the product no later than three (3) months before the assigned Validity Period has expired from the Date Issued of this approval certificate.
12. Water Corporation reserves the right to vary any requirements at any time. Any application of this condition normally occurs after consultation with the manufacturer, supplier and end business user connected to Water Corporation’s sewer.
13. Water Corporation shall be notified in writing if the pre-treatment device is withdrawn from sale.
14. The proponent of the approved product accepts that the information provided in this document shall be made publically available.
Approval certificate

Trade waste pre-treatment product

General conditions of approval

Approval shall be **suspended** where any of the following conditions are not met:

1. If there is a breach of the Special Conditions.
2. The assigned **Validity Period** has expired from the **Date Issued** of this approval certificate.
3. The product shall be manufactured in accordance with Water Corporation’s requirements at the time of approval.
4. The product shall be manufactured to comply according to the details noted in the approved drawings noted below, in addition to any further details provided by the proponent when seeking this approval.
5. The product supplied for use in Water Corporation’s area of operations shall comply with the requirements shown on this approval certificate. Sizes, classes, lengths or other product variables which are available with the product but which are not approved as listed on this approval certificate shall not be offered by the supplier for use in Water Corporation’s area of operations.
6. All discharges to sewer associated with this product must not exceed Water Corporation’s **Trade Waste Acceptance Criteria**.
7. Prior to any business (which is connected to Water Corporation’s sewer) installing this product the business must apply to Water Corporation for a **Trade Waste Permit** for approval to discharge.
8. If this certificate has been issued to the manufacturer of this product then it is the responsibility of the manufacturer to ensure all current and future suppliers / vendors of this product are provided a copy of this approval certificate.

Approval shall be **reviewed** where any of the following conditions occur:

1. The product is manufactured with either different materials, methods of manufacture, location of manufacture, source of raw materials, component subcontractors or models to that at the time of approval.
2. The ownership of the primary manufacturer or any subcontractors is varied from that at time of approval.
3. The standards and/or specifications to which the product was required to comply with at the time of approval have been amended or revised.
4. The product has been found to sustain damage or provide unsatisfactory performance on occasions of number considered excessive by Water Corporation, when handled, stored, assembled or installed in accordance with the supplier’s or manufacturer’s written instructions.
