

ESInet system requirements

Minimum system requirements and compatibility

Minimum system requirements for ESInet

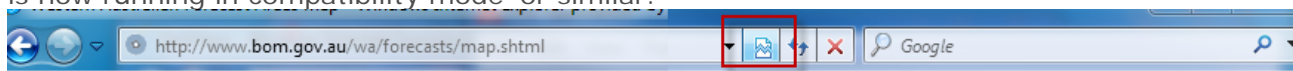

- PC with 300 megahertz or higher processor clock speed recommended;
- Adobe SVG Viewer 3 - [install Adobe SVG Viewer 3 now.](#)

Compatibility

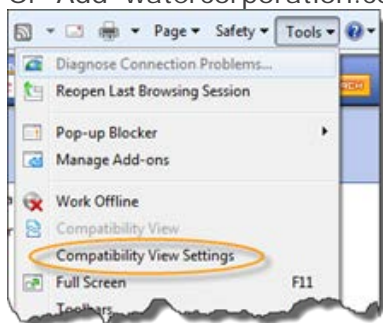

Operating Systems - Windows 7

Browsers - Internet Explorer 8, 9, 10, 11

For versions higher than IE8 you will need to click on the icon indicated below before you enter any details on the ESInet login page and you should receive a message advising you that 'Page is now running in compatibility mode' or similar.

Or 'Add' watercorporation.com.au to the 'Compatibility View Settings' under 'Tools'

Please note ESInet is only tested and approved for Internet Explorer. Other browsers may not give full functionality.

Agreement

You will also require a valid ESInet Agreement with your current company. Please fill in and return a copy of the [ESInet User Agreement](#) and sent it to the [ESInet Administrator](#).
