

Wastewater upgrade project in the City of Armadale

12/06/2019

Project update

From **14 June 2019** our authorised contractor, Georgiou, will begin work to install a wastewater pipeline on **Keane Road from Gracefield Boulevard to Garinga Road**. The pipeline will be installed in stages and is expected to be complete by **31 July 2019**.

Work near the Harrisdale Senior High School is planned mainly during the school holidays from 6 July to 27 July 2019.

Work times

Work will be carried out on weekdays between **7am and 5pm**.

Property access and traffic management plans

We will aim to maintain access to properties at all times. If for construction and safety reasons access is temporarily unavailable our contractor will work with you in advance on an alternative arrangement. If you have an enquiry or issue regarding property access please contact Georgiou Project Manager, David Bradley on 0438 805 921.

During this time traffic management will be in place, closing the south bound lane with detours to ensure public safety.

There will be temporary closures to accommodate machinery and pedestrian access will be restricted during this time. We ask road users to follow the traffic management accordingly and take extra caution while in the area. Refer to map below which shows the construction area.

Mail delivery

As a result, access to mail boxes may be affected. An Australia Post representative will be escorted by Georgiou staff to make postal deliveries during construction working hours if it is safe. Any deliveries made outside of these hours will be redirected to the closest Australia Post.

All redirected postal deliveries made to residents on Keane Road between Gracefield Boulevard and Garinga Road will have their mail available for collection at **Australia Post, Harrisdale, located in Stockland Harrisdale Shopping Centre. Open Monday- Friday 9am-5pm.**

Temporary water supply interruptions

There may be a short interruption to your water supply while we install the wastewater pipeline. We do our best to ensure scheduled interruptions occur when demand for water is at the lowest and we will notify you before it happens.

Reinstatement

Our construction method being open excavation, will mean unavoidable impact to roads and verges. Once the new pipe is in the ground all open trenches will be backfilled, compacted and reinstated.

Water Corporation follows a thorough reinstatement process to ensure all impacted areas are replaced like for like, where practically possible. We work closely with the City of Armadale and residents to ensure all reinstatements are carried out to an acceptable and high standard.

Who to contact

If you have an enquiry or issue requiring immediate actioning onsite, i.e. property access, please contact **Georgiou Project Manager**, David Bradley on **0438 805 921**

For general enquiries please contact Water Corporation Community Engagement Advisor Kym Walker on **9420 3527** weekdays during business hours. Alternatively, email **community.engagement@watercorporation.com.au**

For project information, please visit www.watercorporation.com.au/balannup

To report a fault, emergency or security issue, please call **13 13 75** (24 hours).

We appreciate your cooperation and understanding while this essential work is carried out, and apologise for any inconvenience caused.
